H5-FLOW is available in virtual range. It can be deployed in VMware or Hyper V environments and hosted in private or public cloud. You can also benefit of its agility in case of an emergency and urgent deployment needs, especially on abroad sites.

Available via a valid license key for a period of 1 month or perpetual, you can position and transfer H5-FLOW virtual any time on your network infrastructure in matter to respond to your production needs.

H5-FLOW virtual is a NetFlow and sFlow collector solution and deliver data to H5-Performance Reporter, showing to network engineers how application traffic impacts network performance. By using this network extensive statistics data, Netflow and sFlow Cisco IOS data that are produced by routers and compatible switches. H5-FLOW virtual range is an easy, quick and efficient way to enhance and increase network visibility.

◇ TECHNICAL FEATURES

Specifications	H5-FLOW-50	H5-FLOW-200	H5-FLOW-500
Max flow rate	50 000	200 000	500 000
Number of vCPU	4	4	6
Host CPU req.	> 2.5 GHz	> 2.5 GHz	> 2.5 GHz
Memory req.	4 GB	4 GB	16 GB
1 min / 5 min / 1 hour / 1-day data storage	15 days / 1 month / 3 months / 6 months	15 days / 1 month / 3 months / 6 months	15 days / 1 month / 3 months / 6 months
Storage req.	300 GB	300 GB	1 TB
Monitored objects	700	700	700
Business Flows	300	300	300
VLAN	500	500	500
Hypervisor req.	VMWare ESXi 5.0 or above	VMWare ESXi 5.0 or above	VMWare ESXi 5.0 or above

◇ H5-FLOW Virtual

- Easy to connect
- Easy to deploy
- Available via a license key
- sFlow & NetFlow collector
- Deployed in VMware or Hyper V
- Real-time data analysis
- Compatible with H5-CPR solution for reporting
- Hosted in private or public cloud
- Low memory required

◇ OUR VISION: VISIBILITY & TECHNOLOGY FOR NETWORK FLOWS

H5 Network R&D team has designed innovative technologies that enable enterprises, service providers and governments to enhance their global network and application visibility. With H5 Appliance, corporations can deploy an "easy-to-use" comprehensive software and hardware solution. This allows various team to access IT information in an adapted format.

Using a common tool for IT Reporting enables users to broadcast a clear and comprehensive information on applications' behavior and trending of the network. H5-Appliance provides a powerful network visibility solution for Network operations center, a clear vision for Network managers planning growth & IT changes, and for Helpdesk assisting users with IT issues on daily basis.
